The National Development Company (NDC), through the Approved NDC's Capital Expenditure Program for the Year 2020, intends to apply the sum of TWO MILLION TWO HUNDRED THOUSAND PESOS (P2,200,000.00) being the Approved Budget for the Contract (ABC) to payments under the contract for Consultancy Services for the Preparation of a Structural Retrofitting Design Including Construction Supervision for the National Development Company (NDC) with Project Reference No. MR20-12-134. Bids received in excess of the ABC shall be automatically rejected at the opening of the financial proposals.
2. The NDC now calls for the submission of eligibility documents for Consultancy Services for the Preparation of a Structural Retrofitting Design Including Construction Supervision for the National Development Company (NDC).

The NDC Building is a 12-storey building located at 116 Tordesillas, Salcedo Village, Makati City with basement and roof deck composed of reinforced concrete columns, beams, shear walls and slabs.

In 2018, the NDC engaged the services of the structural firm, Ruel B. Ramirez and Associates (RBRA), for the conduct of the structural stability certification with testing and evaluation report. The said engagement aimed to assess, evaluate and audit the structural strength and serviceability of NDC Building relative to the provisions of the National Building Code of the Philippines (NBCP).

RBRA certified NDC building as SAFE under gravity loads. However, for a seismic load (earthquake) with a source type that can generate a magnitude of 7 and higher, both buildings will become unstable.

The result of the Structural Stability Certification also showed that some structural members of the NDC Building have to be retrofitted/strengthened.

In this regard, the NDC intends to invite prospective Consultancy Service Providers to undertake the preparation of Structural Retrofitting Design including Construction Supervision for NDC Building.

The objectives of the consultancy services is to recommend the most appropriate retrofitting/design scheme that will:

- Reinforce the weak members of the building based on the structural investigation report for the NDC Building and
- Reduce or eliminate the risk of earthquake damage to the NDC Building.

To ensure the attainment of the objectives of this engagement, the Consultant shall provide the following services:

a. Package A. Structural Retrofitting Design Analysis: (60% of the contract)

- Prepare structural modeling and analysis as a result of the validation and review;
- Check the existing condition of the building's structural layout, brace system, structural members, structural configuration and joint configuration of the building;
- Assess the current load carrying capacity of the structure, as well as the foundation. Excavation test may be carried out if necessary;

- Conduct structural tests, when necessary, to determine the actual strength of structural members;
- Present at least three (3) schemes of Structural Retrofitting Designs and provide recommendations;
- Provide detailed design engineering plans and drawings, method of statement, costing and bill of quantities including Unit Price Analysis (UPA) for the approved design for construction and for application of necessary permits, as required;
- All drawings shall be prepared in A1 format, while figures/plates accompanying the report will be reduced to either A3 or A4 (and at appropriate scale);
- Check building occupancy/tenants and prepare Gantt chart schedule for determination of activities and timelines;
- Provide assistance during procurement process;

b. Package B. Construction Supervision (40% of the Contract)

- Supervise the implementation of the approved retrofitting design;
- Review progress report, review shop drawing plans, review accomplishment reports, and final accomplishment reports done by the Retrofitting Contractor to ensure that the structural retrofitting design is implemented and completed according to the approved design specifications;

7. Modification and Withdrawal of Eligibility Documents

- 7.1. The prospective bidder may modify its eligibility documents after it has been submitted; provided that the modification is received by the Procuring Entity prior to the deadline specified in Clause 5. The prospective bidder shall not be allowed to retrieve its original eligibility documents, but shall be allowed to submit another set equally sealed, properly identified, linked to its original bid marked as “ELIGIBILITY MODIFICATION” and stamped “received” by the BAC. Modifications received after the applicable deadline shall not be considered and shall be returned to the prospective bidder unopened.
- 7.2. - 7.3. Eligibility documents requested to be withdrawn in accordance with this Clause shall be returned unopened to the prospective bidder concerned. A prospective bidder that withdraws its eligibility documents shall not be permitted to submit another set, directly or indirectly, for the same project. A prospective bidder that acquired the eligibility documents may also express its intention not to participate in the bidding through a letter which should reach and be stamped by the BAC before the deadline for submission and receipt of eligibility documents.

8. Opening and Preliminary Examination of Eligibility Documents

- 8.1. The BAC will open the envelopes containing the eligibility documents in the presence of the prospective bidders’ representatives who choose to attend, at the time, on the date, and at the place specified in the **EDS**. If a prospective bidder is rated "failed" in any of the eligibility requirements, he shall be considered ineligible to participate in the bidding, and the BAC shall mark the set of eligibility documents of the prospective bidder concerned as "ineligible."
