SCOPE OF SERVICES:

1. The appraisal services shall cover land only with the end purpose of establishing the Market Value and Fair Rental Value.
2. Property, Location and Identification - Based on the Technical Description as inscribed in the title, conduct all necessary inspections to verify and/or record the following:
 - Property location and identification
 - Landmarks and distance from main thoroughfares
 - Tenants, occupants and claimants, if any.
3. Land Data Verification – Locate, inspect and plot the subject property to determine the physical characteristics of the land such as: size, shape or terrain, elevation in relation to fronting thoroughfares, road type and width, road frontage, average depth and such other information.
4. Neighborhood Data – conduct verification with the Planning Office to determine any on-going and future development within the covered barangay or municipality of the subject property.

The report should contain:

- Compliance to official zoning of the area in which the property is located
- Land development
- Availability of public services – i.e., water, power, gas, telephone, sanitation and transportation

- Nature and condition of public thoroughfares
 - Nuisances and/or easements, if any
 - Availability and accessibility of amenities, i.e., commercial centers, recreation facilities, hospitals and churches, school and public markets
5. Identify risks – determine and identify risks present in the property and conditions that aggravate the risk that will affect its value and will require security or insurance coverage or will result in higher insurance premiums.
 6. Highest and Best Use – analyze the prevailing land use in the neighborhood and current land use plans and compare the nature of the subject property in order to determine the HABU.
 7. Valuation – gather and analyze data on recent sales of similar properties in the vicinity of the subject property and interview people known to be knowledgeable of real estate prices and the circumstances of the sales.

Gather and analyze data on the zonal valuation of the subject property.

Gather and analyze data on the prevailing rental rates in the vicinity of properties of the same classification or highest and best use and provide an opinion of the Market Rental Value of the subject property.

DURATION OF WORK:

The site inspection and appraisal shall be completed within 20-calendar days from the receipt of the Notice to Proceed together with the Letter of Authority to Inspect to be issued by NDC, as needed.
